Read the passage and answer/complete the questions from 31 to 35:

Running is one of the most popular sports in the world because it is simple and cheap. You do not need any expensive equipment – just a good pair of running shoes. Regular running helps people improve their cardiovascular health, lose weight, and reduce stress. Many people prefer running in the morning because the air is fresh and it gives them energy for the whole day. However, others choose to run in the evening to relax after a busy day at work. To avoid injuries, it is important to warm up before running and drink enough water.

Physical exercise is very important for our health. Walking is one of the easiest and cheapest ways to stay fit. Many doctors recommend that people should walk at least 10,000 steps a day. Regular walking can help you lose weight, reduce stress, and improve your heart health. You don't need any expensive equipment to start walking. All you need is a comfortable pair of shoes. It is also a great way to enjoy nature and spend time with friends or family. If you don't have much time, you can try walking to work or taking the stairs instead of the elevator.

Living in a big city has both advantages and disadvantages. On the one hand, cities offer better job opportunities, modern hospitals, and various entertainment activities such as cinemas, parks, and shopping malls. Public transport is also very convenient, so you do not need to own a car. On the other hand, city life can be very stressful and expensive. The air is often polluted because of traffic jams, and noise from vehicles can affect people's sleep. Furthermore, crime rates are usually higher than in the countryside. Despite these drawbacks, millions of people still choose to live in urban areas.
